USDA Zones 8-10

Sizes Available: 24" | 36" | 48" | 60" | 72" | 84" | 96"

Elegant, non-fruiting evergreen with gray-green foliage, light gray bark and a rounded canopy. Unlike the Common European Olive, Swan Hill Olives® trees are non-fruiting and produce no pollen, keeping paths, sidewalks, pools and furnishings clean and mess-free. Trees are drought tolerant once established and provide shade in hot climates. Grafted onto vigorous, disease-resistant rootstock. Useful as a street tree, accent or feature tree, in large containers or planters, near swimming pools or water features.
